

Cabinet Maker

When was the last time you enjoyed going to work? When was the last time you built a project that was featured in the newspaper or that you could bring your entire family to see? Heavy Industries builds these types of projects on a regular basis and we are looking for a Cabinet Maker or Finish Carpenter to join our team. The position is full time and your first project will be to help build extensive millwork and acoustical panels for a concert hall.

PRINCIPLE RESPONSIBILITIES:

- Production of carpentry-related projects, both as finished pieces and sub-assemblies
- Working from shop drawings to build one-off custom pieces in an array of materials
- Assembly of custom pieces that require careful attention to detail
- Building jigs and templates to support the needs of other departments and your own
- Creating custom formwork for the architectural concrete department
- Travelling to install works both locally and abroad
- Adhering to production schedules, tracking efficiency and proactively estimating resource requirements to meet timelines
- Act as a mentor for those of lesser experience
- If experienced, supplement our CNC Machining department to mill sheet goods
- Keeping the carpentry department clean and organized
- Performing other related production tasks, which may include supporting other departments

KEY ATTRIBUTES:

- Familiarity with construction and/or custom fabrication processes
- 5+ years experience working as a finish carpenter and/or cabinet maker
- Must hold a Journeyman Cabinetmakers certificate or have greater than 5 years of full time experience in a credible shop
- A portfolio of work that may include high quality furniture, veneering or laminating, custom joinery, jig & template building, or artistic woodworking
- Proficiency using an array of specialized power tools, machines, and hand tools
- Solid communication and organizational skills
- High attention to detail
- Proficiency reading and interpreting shop and construction drawings
- Flexibility to work overtime and weekends when required
- Experience with 3-axis CNC milling equipment an asset
- Standard personal tools required

WHAT IS IN IT FOR YOU?

- Job Satisfaction:** You will get to directly participate in some of Canada's most interesting (and high profile) creative construction and art projects.
- Job Variation:** You will never get bored in this fast paced environment. Every project is different and every day comes complete with its own unique challenges and problems for you to solve.
- Job Opportunity:** You will be exposed to countless opportunities to grow and develop our relatively young business into one of the world's premiere manufacturing companies. We have not plateaued and do not plan on doing so any time soon.
- Culture:** You will get to work with fun, dynamic and highly skilled craftspeople that are driven to succeed.
- Remuneration:** You will be hired to work full time and your wage will be relative to the experience you bring and your accomplishments moving forward.

If this sounds like the right opportunity for you, please submit your application to **careers@heavyworld.ca**. You are welcome to submit up to eight photos of your work to supplement your application; please compress your photos as emails in excess of 5MB may not be received.
