

Site Foreman/Installation Lead

Heavy Industries is seeking a Site Foreman / Installation Lead to oversee all on-site work.

Working both from our production facility and on site, the ideal candidate will have experience overseeing site-work for small – medium scale construction projects. This includes the management of on-site employees and sub-contractors, while taking a direct hands-on approach to fabrication.

PRINCIPLE RESPONSIBILITIES

- Manage the overall coordination and performance of all on-site activities and implements corrective action when necessary;
- Ensure adherence to safety standards;
- Actively participates in the development and maintenance of the safety culture on the project, making safety a natural part of all work planned and performed;
- Work with project managers to identify potential risks and develop a job plan and all Installation requirements
- Executes work in accordance with the project quality standards and requirements;
- Scheduling on-site work
- Work closely with the Project Manager to manage and control project costs and schedule
- Advises management regarding developments that could affect project profit, schedule, costs, client relations, and internal relations.

WHAT IS IN IT FOR YOU?

- Job Satisfaction:** You will get to directly participate in some of Canada's most interesting (and high profile) creative construction and art projects.
- Job Variation:** You will never get bored in this fast paced environment. Every project is different and every day comes complete with its own unique challenges and problems for you to solve.
- Job Opportunity:** You will be exposed to opportunities to grow and develop our relatively young business into one of the world's premiere manufacturing companies. We have not plateaued and do not plan on doing so any time soon.
- Culture:** You will get to work with fun, dynamic and highly skilled people that are driven to succeed.
- Remuneration:** You will be paid relative to the experience you bring and your accomplishments; you will be rewarded with company success. You will get a company phone, plenty of vacation, and be added to our benefits program.

QUALIFICATIONS

- Red seal trade certification in welding, CWB experience
- 8 – 10 years welding / steel fabrication related experience with at least 3-5 years' experience in a supervisory type role, supervising up to 15 people.
- Ability to read and interpret plans, CWB sheets.
- Experience working for large general contractors and their site requirements
- Outstanding communication and organizational skills
- Demonstrated experience with problem solving, decision-making, and critical thinking
- Experience with job task planning and organizing
- Ability to effectively manage both on-site employees and sub-trades
- Travel within Alberta is required
- Clean drivers abstract

If this sounds like the right opportunity for you, please send your resume to careers@heavyworld.ca with "Site Foreman" in the subject line.

About Heavy Industries

Heavy Industries has been beautifying the built world since 2003. As a custom fabricator based in Calgary, Heavy Industries has manufactured and installed some of Canada's best known public art sculptures and most complex architectural projects. Through technology, experience, and expertise, Heavy Industries has become a single source for designing, fabricating, and installing sculpture and custom features for artists, architects, and design professionals. In our world, iconic designs and creative places are built without compromise.
